

Brand-Nu Laboratories, LLC

December 10, 2021
BNL Change Notification # SCC 1241

Dear Valued Customer,

Brand-Nu Laboratories will be implementing Microsoft Dynamics AX Enterprise Resource Planning (ERP) system to align with our new parent company, Caldic B.V.

Currently, implementation is planned for April 1, 2022.

This new ERP system will help to streamline order processing, logistics coordination, and improve various aspects of Brand-Nu Laboratories daily operations.

Most changes associated with the ERP system will not be apparent to customers. However, you may notice changes to the appearance of documents such as the layout and appearance of order confirmations, shipping related documents and invoices. The content of the documents will remain the same.

Brand-Nu Laboratories will provide samples of the affected documents in an update to this letter as we progress with the change.

If you require any further details, please do not hesitate to contact us at changenotifications@brandnu.com.

We appreciate your continued confidence and interest in Brand-Nu Laboratories, LLC.

Best Regards,

A handwritten signature in blue ink that reads "Rachel Harlan".
